

QGate

Facts & Features

QGate features

- QAppworld – app-based „Internet of Things“ solution
- open app development studio in the cloud
- actuator to switch electrical devices
- lightbar for events, alarms and user-defined ambient light
- social notifications and alarms (Facebook, Twitter, text message, e-mail)
- integrated sensors (temperature, light, powermeter, microphone)
- radiolink for 10 external sensors and simple self-installation
- international usage via GSM – no WIFI required

QGatefacts

- matt black
- CEE 7/4, TÜV, CE, TGM
- 230 VAC, 50...60 Hz, typ. 1,5 W
- dimension 88 x 55 x 68mm, ~260 g, IP20
- switch 10 A, 2300 VA
- temperature sensor 0...40 °C
- light sensor 250...5000 lux
- powermeter 0,2...8 (+-0,08) / 8...2300 W (+-1%)
- microphone
- radio interface 868,3 Mhz
- GPRS/EDGE quad band, TCP/IP
- RGB lightbar
